SERHII REZNICHENKO

FRONTEND DEVELOPER

SUMMARY

I'm an enthusiastic and detail-oriented frontend developer seeking a full-time position in a company where I can apply my skills in coding, continue expanding my knowledge, and tackle new challenges. I primarily focus on writing clean, elegant, and efficient code. I'm a fast-learner and can quickly integrate into a team, thereby providing value to the company and its customers.

PROJECT EXPERIENCE

FlexyPlanner | Github (commercial team project)
HTML - CSS - SASS - Vanilla JS - Axios - Parcel
A website for presenting and selling personal diaries. As a developer, I worked on several aspects, including integrating the Nova Poshta API for delivery, showcasing diary features, and adding animations and accordions.

PizzaTime | Github
React - React Router - Redux Toolkit - Firebase - Emotion - Material UI
A pizza ordering app with multiple pages, including a home page, a products page, a page with a detailed pizza description, an authentication and registration page, a user profile, and a shopping cart. You can sort pizzas by price and rating, add them to the cart, and modify your order in the shopping cart page.

MyMoney | Github (team project)
React - React Router - Redux Toolkit - Redux Thunk - REST API - Styled Components
It's a finance app that tracks income and expenses, making money management simple and fast. As a team lead, I created a Redux store and developed async operations for transactions. I worked on modals, input validation, navigation, routes and redirects.

ContactHub | Github
React - TypeScript - React Router - Redux Toolkit - Redux Thunk - REST API - Material UI
It's an app that helps users manage contacts more efficiently with a simple interface to create, edit, and delete contacts, and search by name. It includes user authentication and registration, and all contacts are stored in a backend database for easy access.

WORK EXPERIENCE

Graphic Designer
Self-employment | mar 2022 - till now
